How to Add Android Apps to Home Screen on Windows Maybe you want to know how to install an application to a desktop and keep it in the home screen, or maybe you'd rather use an application shortcut so that you don't have to search for the app every time you launch your desktop. Either way, you're in luck. Downloading from Google Play Store and installing the app will work fine. After you download the application, start the installation process and choose where you want to install it. After the installation completes, you'll be able to find the application's icon in the home screen. You may also go to the Windows Control Panel, and click on 'System' and 'Device Manager'. Click 'Update Driver Software' to install the.inf file in the driver. You can also install the app to your smartphone and use it from there as well. You can follow the instructions provided by the manufacturer on your smartphone to install the app on your smartphone. How to Add Apps to Windows Phone 8 Store You can install Windows Phone apps to your Windows Phone via Microsoft's Store. Just follow these simple steps. 1. Open the Store app and tap Search. 2. You can search for the apps you want to install from the Windows Store by typing their name or by searching for what they are categorized as. 3. Tap the application you want to install. 4. Tap 'Install'. 5. You'll see the 'App is ready to install' message. 6. Tap the 'Install' button on the bottom right corner. 7. After the installation finishes, tap 'Open' in the top right corner of the Store app. 8. Tap the 'Recent' tab. 9. Tap the 'All Apps' tab. 10. Scroll down the list and select the app you want to add to your home screen. 11. Tap 'Add to home screen' button. 12. A toast message will appear, telling you that the app has been added to the home screen. You can use the app you have added to the home screen as if you installed it from the Windows Store. But you can also open the app and open it from there. How to Install and Uninstall Apps on Windows The most basic and common task in any operating system is the installation of apps, but sometimes users might want to uninstall an app.
