1.02 (3) Feb 23, 2017 - eFlightSim.com | FSPS Sim Physics X For FSX Nov 22, 2015 - Sim Physics X is one of the most amazing add-on for any sim. I use it in FSX and it works really well. It really give you. . Remove titles from folder using python A: The best way to remove a path name from a list of path names is to try to open the folder, or if you can't that is, then to try to access and remove the file from the list based on whether or not that file is the current one. import os for path in list_of_paths: folder = os.path.join(path, 'Documents') try: os.listdir(folder) except: print('This is not the folder', folder) continue for file in os.listdir(folder): if file == 'current_file.txt': continue print('Attempting to remove', file) os.remove(os.path.join(folder, file)) Also, be careful of building py scripts as shown in the example as someone might modify it to look for a binary executable named python and delete your entire system. If you do this be sure to put a copy of python2.exe into your application folder. Q: Can I use both prefix and postfix operators on an object in the same statement? I am using the following statement to obtain the inner value of the double nested object: value = (obj.value? obj.value.value.value : 'null') Can I use the other two operators (>) and (something) A: Yes you can combine both with the use
