A: First of all, I would recommend you to send an email to the support team of the company/official website and ask if a PDF can be provided or not. The standard is downloadable here. In case no PDF is provided, I would try to find the standard for Germany (it should be DIN 6935-1). I

haven't found a PDF on their site, but I suspect that there is a way to get the DIN-PDF. HAPPY HOLIDAYS WISHES FROM VERNON & KAROLYN We had a great holiday season. Thank you to everyone who shopped at Vernon & Karolyn's Holiday Shoppe. We hope you had a merry holiday. We're back open for business on Dec. 8 and are ready to help you find a gift for that special someone on your holiday gift list. Remember that we're running out of many special items due to a high demand. To help us out we ask that you be sure to call to make sure that we have what you are looking for before ordering online or in store. If you see something you want on this list, ask if we have any in stock. Holiday Help Line: 901-634-8111 Dec. 8, 11, 14 and Dec. 15 9 a.m. - 5 p.m. Dec. 22-24 9 a.m. - 5 p.m. December 2016 New Product for Dry Cleaners Find Gift Ideas Don't forget to support local small business this holiday season when you

shop at Vernon & Karolyn's Holiday Shoppe. While we're still missing some items, we are adding new items that will be available in store. And don't forget, we are open Monday through Saturday this month. We hope you have a happy holiday.

What should be done? - Cryptography expert's take on RSA - cfmcdonald ===== stared

With encryption stronger than "collective code breaking" and RNG on smartphones (at least used to be), RSA is almost useless. It's needed for things like PKI, where you need random numbers to be distributed between sender and receiver.
