Rise is the latest entry in the Action RPG series based on the web manga series "Mashiro Academy High School's Fated Mourning". Mashiro Academy High School is a school that teaches magic and sword fighting in the world known as "The Lands Between". The Lands Between are the world between 2 worlds. The view of Mashiro Academy High School is divided into 2 worlds, the Exterior, and the Interior. There are many schools in Mashiro Academy High School, each with its own design, along with students with unique characteristics. But this all changes when a pupil of the School of the Seasons' Spring set a deadly curse into motion. Greetings, Friends and Alumni! It has been quite some time, and

so I am back from a long holiday with my wife and kids. Sadly, though I have been back for about one week, I have not yet had any free time. For the next few weeks, I shall be actively developing the game, and gathering in-depth feedback on the technical aspects. I shall also be doing my best to get a hold of those that have been waiting for the game. In the meantime, please enjoy the game. Thank you for waiting for us. Keiya ■ App Development Today, we have the following to say. Development Team Currently, our development team consists of around nine members. Many of these members worked on the previous titles, while a few of them are new faces. However, through the development of Titania: The Embodiment of Scarlet Grace, we have been able to grow our team up, and it has truly been an enjoyable experience. The following are the development team members. ■ Game Developer - Keiya Senior Game Developer A former peer of Tiki. Decided to work on a game with his own vision, After finding success with Tiki. ■ Game Designer - Chii Senior Game Designer Chii is a college

student. She is always calm and composed. The person who had the most influence on the design for the characters for Titania: The Embodiment of Scarlet Grace. She is an expert on the Magic World. ■ Technical Developer - Toshihiro Lead Technical Developer A college student. He is responsible for everything related to sound, graphics, and the UI. He is a man who gives his all
