Water deprivation (WD) is an important stressor that induces physiological responses that increase the risk of urological disease in food producing animals. In this study, bovine bladder epithelial cell RNA was used to investigate gene expression changes in response to WD. Cultured primary bovine bladder epithelial cells were placed in media containing 20% or 5% (wt/vol) dextrose (control) at 2 days prior to a 24-h period of WD and analysed by DNA microarray. Galaxy Warfighter is a sci-fi action shooter game that was released in 2004. It's story takes place a few years in the future. The player is the pilot of a space fighter. The game's objective is to escape from the galaxy while destroying all enemy ships. The controls of the player ship are well suited for the game: the movement is done using the arrow keys and the acceleration is achieved using the space bar. The players' actions determine the direction of the ship, and the speed of the ship. And as the enemy pursues the player ship, he/she can destroy it from time to time. The game is divided into three levels: Defense (the beginning of the game), Defense 2 and Defense 3. The level is won when all enemies are destroyed and the player's ship is taken to the spaceship where the ship upgrades are being stored. This is an arcade version of the game Galaxy Warfighter. You can download the game and play it on your PC. Download free game "Galaxy Warfighter". what happens when you wake up hungry? (CNN) It's a new day and there is a knock at the door: a bear. In a new video, posted to Reddit on Monday, one delighted man is surprised to be visited by a wild black bear who just wants some breakfast. The clip is part of a series called "Let It Bear," which was uploaded to YouTube three years ago by a British wildlife photographer. It's an original film from The Wolong Nature Reserve, a wildlife research and conservation center in the Chinese province of Sichuan. The center works with the nearby Wolong National Nature Reserve, where the video was shot, to conserve rare, charismatic animals such as the Giant Panda, the Red Panda and the Asiatic Black Bear. The Asiatic Black Bear has been facing extinction in the wild but thanks to conservation efforts, the world's second largest subspecies is listed as a "least concern."
