I have been dealing with techsupport for about 2 weeks now. After multiple phone calls and emails, my keyboard is not working on my new Dell Studio. Standard keyboard works fine. 10 comments: Hello! You need to "wrestle" the PTC site back from the techno hijackers with FIRE! Please use the favorite bookmarks and search engines to find this article on your own. Most of us know what happened. File Description: Tech-2-Win provides the tools for developers to use to diagnose problems and fix issues in software and hardware. It has programs for PLCs, AS microcontrollers, as well as programs for motor control systems and automotive applications. This is a 3D war game with Online Multiplayer, Day and Night-cycle, online Bootcamp, popular medieval weapons and lots of muskets for your fighting-strategy! As far as I understand, it might be that the server is not responding. When I try to play a game, this text appears: "This server was not found on the DNS-Server list, try to find it on (. I have Windows 7 x64, and a ATI Radeon HD 7750. When I try to run them, it just shows the black screen and then restarts the computer. I try to run them in VLC media player (free version), and it doesn't work in that one either. I tried switching the video driver with no luck. What can I do? It's really frustrating because I want to play them, but I can't. Can you please take a look at the game and let me know if it works in your system? There are two versions of the game, one is in German, the other in English, but the English version is in free while the German version is full version. If you can download the German version, that would be great, because it's the one I'm most interested in.
