In this tutorial I will show you how to download Instagram video ids from a Facebook page, extract audio from the id and convert the audio to mp3, convert the ids to mp3 and save them to a folder. This tutorial will teach you how to download the audio from the Instagram video ids in an easy way. The Instagram videos ids are in

JSON format and they are very simple to download. I use for this tutorial the webscrapers package of python as well as BeautifulSoup, JavascriptLint, and Unidecode
