Wintter is a free Desktop application, made by Charles De Coster, that allows you to send text messages with one click and with additional features. With Wintter you can send unlimited text messages to mobile phones and you can send customized messages, by combining different message parts together, and you can send text messages with images. With Wintter you can: - Compose unlimited text messages with one click - Send customized messages by combining different message parts together - Send text messages with images - Edit your messages before sending them - View all your contacts - Save your contacts in a file - And lots more One should keep in mind that in some countries (but not all), sending more than ten text messages per day or per week may incur a maximum charge of the mobile operator. In the USA, this limit is 5. Source: Softpedia (@file Defines `boost::hana::lift1`. @copyright Louis Dionne 2013-2017 Distributed under the Boost Software License, Version 1.0.
