What's new in This Is The Police 2 - Soundtrack:

, Part 3 So there's a few things we get to see in this episode. One is Thanatos, the executor of the Underworld who has a new look (and writing). Another is his rivalry with Keres, the succubus who is a force to be reckoned with. There's also the renewed life being given to the resurrected soldiers resurrected by Thanatos and Keres' god parents. This episode is heavy on jump scares, heart pumping action sequences, and emotional payoffs. But it also gives us more on Thanatos' plans for Persephone and gives us the first look at Keres next big plan. And on top of that, this episode gets a little deeper into the history of the fallen.

Characters

Thanatos - A fallen angel warrior, Thanatos like many of the main characters is steeped in myth and half remembered history. He is Thanatos, he has the soul of Thanatos, and he has to be put down. Overall he's a reasonably nice character, but like several of the main characters he's riddled with confusion and self doubt.

Keres - Thanatos' greatest rival, Keres is also one of the strongest of the soul fey. She's believed to be the daughter of Nyx, the goddess of night, and Ereshkigal, the goddess of the Underworld. She frequently runs afoul of Thanatos and his efforts to control Hell and its inhabitants. Her motivations are equal parts personal and to be the ruler of the Underworld. She revels in the chaos and sadness and pain that her actions bring.

Enjoy!**

Hey guys! I finally got around to releasing my Cloudpunk Soundtrack for all you gamers. This Game was developed back in 2014 by Firewatch Game Studios but they are not much into the gaming industry anymore so the name seems quite recent to the majority of gaming consumers. I managed to talk with a friend of mine who was a co-worker from Firewatch Game Studios and asked for some of the background story behind the Game, because I rarely get updates from Firewatch and this game caught my eye with its awesome rendering and lighting.

The story behind this game is told from many sources in the game itself and has two main players: we follow and uncover Viera McNeil who has a beautiful and unique voice which I can attest to and Charles Huddleston who provides narration to the story and provide various talking heads as well.

I've listened to the game numerous times and I have finally decided to make my listening experience that much more enjoyable by adding my own music to the mix and hopefully providing you guys with something to listen to while you play through the game. I'm not really sure whether or not I can provide much better sound quality than the music that is already included but this is my first time experimenting with music so bear with me please.

Enjoy! Comment and tell me what you think! I also want to hear your feedback so please email me at jaysyable@hotmail.com with any feedback you guys may have! I'm looking forward to hearing from all of you!
