What's new:

Mars: Chaos Menace, titled Mars: War of the Three Planets in Japan, is the inaugural title in the Martian Manhunter miniseries. It was published from January to March 1983 by DC Comics as a three-issue miniseries, and was written by Steve Englehart and drawn by Marshall Rogers. A film adaptation, directed by Paul Marcus, was released in 1984. Englehart also wrote Warlord of Mars, a full-length follow-up to Martian Manhunter that first appeared in March 1984, and that helped expand the myths surrounding Martian Manhunter. Plot An interplanetary war breaks out over a stockpile of bodies from the doomed, utopian Mars Colony, led by the evil Excalibur. A raid upon the colony by the warlord Rodan - and his Hyperborean cavalry - sets the stage for the interplanetary conflict. As it is the nature of the all-powerful Mechanus to eventually seek victims to use for his own ends, Rodan's raid marks a major turning point in his life. The Mechanus creates a new body for himself, and then masks the face of the victim in an absurd mask. When the mask is removed, the man's face is revealed to be that of Martian Manhunter, who has suddenly appeared after many a

year of being held captive in the Mechanus' machine city, only to be dragged here by the same mechanus whose identity is temporarily disguised to Rodan. (The Mechanus is actually Lord Oz, the creator of the Red/Blue Lantern Corps, who has disguised himself as the "fairest soul" of the multiverse, using his godly power to conceal his true intent to bring the universe into a warping state to destroy all life.) MANHUNTER, ADAERRA AND THE TWO MENORI Meanwhile, Martian Manhunter and the two Moriori commandos who came to Mars as test subjects - Agent Adara and Orophin - journey across the war-ravaged landscape of Mars to bring reinforcements to the line. Adara is fighting beside a Martian named Marek who is secretly sympathetic to Earth culture and ideology. Marek's hostility towards Mars is the cause of a great deal of friction between themselves. The men arrive to find the city of the human refugees laid in ruins - although the entire population of the city has been rounded up by Rodan - and the men enter the city with Adara and her Moriori ally.
