I feel like only the visited is wrong. The main issue that I have is when I select black, the light gray glitch is on my black block. This is my website: A: You are using semantic-ui framework and it's not a good idea (in terms of accessibility, SEO, etc..) to change the default theme or colors. This is a bug of semantic-ui, because the general color for "visited" classes is: a:visited { color: #666; } So you can do this: .logout:visited { background-color: #666!important; color: white!important; } Or if you want only the "a
