
Dev C 4.9.9.2 Full HOT! Version Free Download

Dev-C++ is a full-featured Integrated Development Environment (IDE) for Win32. It uses GCC, Mingw or Cygwin as compiler and library set. It also uses Microsoft Visual C++ for backward compatibility with Windows applications. It uses GDB as a debugger and supports real-time debugging. It also uses Qt to provide the user interface. Dev-C++ provides a command line interface for Windows and Unix. It supports creating, installing, and updating packages that are distributed via email in one package.
